*I Saw Grief drinking a cup of sorrow and called out, “It tastes sweet, does it not?”*

*“You’ve caught me,” grief answered, “and you’ve ruined my enterprise. How can I sell sorrow, when you know it is a blessing?”—Rumi*

I would like to add the following quotes and comments to our 2/14/23 vlog on **Saturn's Ingress into Pisces**. My hope is we expand our Hearts and come together to make significant changes for the good of all mankind with or without facing adversities.

We can look at *history* for what has happened in the past pondering if it will correlate with what is to come to past. But going forward we are co-creating *herstory* and that can be something entirely new. -Mary Kern

The indigenous peoples have been the caretakers of the planet and have held lost knowledge that the rest of mankind needs to hear now at this time of the great turning.

*Be well, my children, and think good thoughts of peace and togetherness. Peace for all life on earth and peace with one another in our homes, families and countries...The same great Father Sun shines his love on each of us daily just as Mother Earth prepares the substance for our table... We are one after all."*

*"Nothing living will go untouched, here or in the heavens. The way through this time it is said is to be found in our hearts, and reuniting with our spiritual self. Getting simple and returning to living with and upon the Earth and in harmony with her creatures, remembering that we are the caretakers, the fire keepers of the Spirit."*

*- Dr. Robert Ghost Wolf in Last Cry: Native American Prophecies and Tales of the End Times*

*The world and the whole universe is shifting right now. People have to raise their harmonics and the only way is to raise spirituality through the heart chakra. —Singing Bear (Cheyenne)*
